AV-PC-MAC

WE BUILD REPAIR AND CARE

If you feel your computer is not performing at the speed it ought to, or it is freezing on you, or

whatever troubleshooting you might be experiencing, we will go to your home and assess what needs to be done.

It could just be that your computer needs an upgrade or updates have not been done. Consult our technical expertise. Avoid the hassle of taking your computer to after-sales over-priced service centers! We will quickly find an economical solution to your problem.

...**OR** do you need a new computer? We will help you decide to make the right choices for your budget and needs, while getting you the best deals available on the market.
